

CLAIMS

1. A woven/knitted fabric comprising a conductive fiber and a non-conductive fiber, wherein the woven/knitted fabric
5 has a woven structure or a knitted structure of said non-conductive fiber and a continuous wiring forming a coil of the conductive fiber.
2. The woven/knitted fabric according to Claim 1,
10 wherein the coil is formed in the woven structure or the knitted structure by weaving or knitting the conductive fiber by a weaving machine or a knitting machine.
3. The woven/knitted fabric according to Claim 1 or 2,
15 wherein at least a portion of the non-conductive fiber is a fusible yarn.
4. The woven/knitted fabric according to any one of Claims
1 to 3,
20 wherein the conductive fiber is a copper wire.
5. A diaphragm for a speaker comprising the woven/knitted fabric according to any one of Claims 1 to 4.
- 25 6. A speaker comprising the diaphragm for a speaker according to Claim 3.
7. The speaker according to Claim 4 comprising a buffer material between the diaphragm for a speaker and a magnet.
30
8. The speaker according to Claim 6 or 7 as an interior material for a room or an automobile.
9. A noise control system using the speaker according
35 to Claim 6 or 7.

10. A sound navigation system using the speaker according to Claim 6 or 7.

5 11. A display equipped with sound guidance using the speaker according to Claim 6 or 7.
